## News in Brief Form

Local Items and Happenings of General Interest  
—Mostly Personals—

Mr. Stewart was in Edmonton this week as delegate to the Fair convention.

Mr. Stata, of the Western Credit Men's Association, is visiting his family here.

Mrs. J. Featherstone and sons left last week for the coast where they expect to remain permanently.

E. Thomas and family, from southwest of Chinook, have removed to Calgary where Mr. Thomas will undergo medical treatment.

Elsewhere in this issue will be found a notice of warning to all who are wearing a part or parts of the C.E.F. uniform to the effect that rigid prosecutions will follow those who are caught.

Youngstown bantam is now in full swing, two rinks being present from here, the personnel of same being: Rennis, Gingles, Stevens, Deman; "Waxy" Smith, Cruickshanks, Vanhook, Hinds.

For fear of a misunderstanding in regard to a statement made in last week's Advance, we wish to state that the 25 per cent. of the gate receipts of hockey matches goes towards paying the running expenses of the rink.

Orders taken for luncheon and breakfast sets of the popular unbleached muslin hand trimmed with applique; also rompers, children's dresses, aprons, house dresses, bags, cushion tops, etc. For particulars and samples see Mrs. Rideout.

Over 12,000 farm settlers from the United States located in Western Canada last year, the majority of them securing land along the Canadian National Railways in Manitoba, Saskatchewan and Alberta.

Silos will be erected on many Western Canadian farms this year, their value being amply proven by the pioneers in ensilage feeding. Corn and sunflowers are rapidly becoming the chief crops grown for the silos on account of their big yield and their milk and beef producing qualities.

The date for the School Fair Concert has been set for Friday, March 3, at 8 p.m. in Arm's hall. A good programme is being prepared by local talent, which ought to prove delightful and entertaining. All citizens of Chinook and vicinity are hereby solicited to assist in making the concert a great success.

The following Districts are invited to send representatives to assist in making the concert a great success. The following districts are invited to send representatives to organize on this evening: Chilmark, Lang-Rearville, Myrtle, Peyton, Colholme, Cloverleaf, Loughlin, Dominion, Cando, Heathdale, Chinook, Chesterfield and Crystal.

## Meeting of School Trustees

The board of trustees of Chinook C.S.D. met in M. J. Hewitt's office on January 30. All the members present.

The minutes of last meeting were read and adopted on motion of Mr. Young.

It was moved by Mr. Wright and carried, that the bills for well and putting in pump be left over until next meeting so that committee may look into this matter.

Knight: Providing Henry Kinch does not wish to drive van from Feb. 20 to March 31, that it be offered to H. Astindale, money saved to be applied on 1921 and 1922 taxes.

Young: That Peter Peterson drive van on route No. 2 from March 6th to March 24th.

Knight: That no cash be paid for van driving if at all possible to get drivers who will apply money earned on 1921-22 taxes.

Young: That resolution No. 92 be amended so that amount to be paid for driving route No. 7 when not going to Klaas Hobbes shall be \$6.00.

Young: That W. E. Brunnell be engaged as janitor to the end of the year, salary to \$75 month same as last year.

McIntosh: That Lorne Proudfoot be engaged as secretary-treasurer, salary \$300 per year the same as last year.

Young: That the following resolution be submitted to the Trustees' convention: "That in Consolidated School Districts the trustees be paid \$1.00 per meeting."

Young: That a 5 per cent. discount be allowed on all current taxes paid before July 1st.

Knight: That in order to relieve the congestion in the school the board recommends that the pupils recently transferred from room 1 to 2 be again placed in room 1 until the end of the present term; that no class of beginners be started in room 1 until after that date, and that all other pupils starting for the first time must make application to the board to see if there is room.

A number of accounts were passed for payment.

## Surprise Party

Mr. and Mrs. Frank Foster recently moved into their new home, which is a very fine house of the semi-bungalow type, containing twelve rooms. Here they were pleasantly surprised last Friday night when a large number of friends gathered from all directions to do them honor. The visitors included: Mr. and Mrs. Finlay McKenzie, Mr. and Mrs. W. H. Short, Mr. and Mrs. B. A. Proctor, Mr. and Mrs. Niel McLean, Mrs. Fred Maris, Mr. and Mrs. George Connell and two daughters, Mrs. Featherstone, Mrs. Hansen, Ruth Hansen, Mr. and Mrs. R. Whelan, Mr. and Mrs. Noble, Bessie Noble, Mrs. Richardson, Louise and Melva Richardson, Mr. and Mrs. W. A.

Todd, May Todd, Freddie Maris, Burne Orrison, Joe Short, Bert Currie, Eddie and Glen Upstone and Leonard Cooley.

Dancing which was indulged in, was thoroughly enjoyed by all, excellent music for it being rendered by Mrs. Proctor at the piano and Messrs. Upstone and Fred Foster with violins. Songs were rendered by Mesdames Whelan, Proctor and McKenzie and by E. Upstone. From first to last there was not a dull moment, and all too soon the "wee sma' oars ayont the twal" swept round, and at 4 a.m. the singing of Auld Lang Syne in a circle around the host and hostess, brought to an end a gathering that will be long remembered by all who were there. During the evening a sumptuous supper was served to which full justice was done.

## OBITUARY

It is with deepest regret that we announce the death of little Alfred, youngest son of Mr. and Mrs. E. C. Stata, who passed away at the age of seven years early Wednesday morning, after

an illness lasting eight months. The sad news of little Alfred's death cast a shadow over the whole community, for most of his short but happy life was spent among us, and every heart was touched with sympathy for the stricken ones, from whose fire-side the light had fled.

Rev. Geo. A. Kettys conducted the service at the home, on Thursday afternoon, and, speaking in words of deepest sympathy and comfort, he reminded his hearers of the hope we have promised in Christ. After the service the cortege proceeded to the station where the body was shipped to Calgary for interment. Ten school children acted as pall-bearers.

Among the beautiful floral tributes were: Father, Mother, Sister and Brothers; The School Children; Ladies Aid, and Mr. and Mrs. J. R. Miller.

Mr. Stata and his son, Harry accompanied the body to Calgary where the burial is to take place to-morrow.

## Spring Goods are Now Arriving

In order to make room for them we are still offering Big Reductions in winter Goods of all kinds

There will be an important notice in this space next week.

Flour is sure to advance. Have you secured your spring's supply? We advise all our customers to stock heavily before any further advances.

**J. M. Montgomery**

# ROYAL YEAST CAKES

Canadian Made

As a health builder, Royal Yeast is gaining in popularity every day. It is a food - not a medicine. It supplies the vitamins which the diet may lack. Royal Yeast is highly beneficial in cases where the system seems "run down". Royal Yeast is the richest known source of vitamins, and when taken into the system acts as a corrective agent. Royal Yeast Cakes are recommended for their purity and wholesomeness. It is the purest, the most convenient and economical yeast on the market.

Two to four Royal Yeast Cakes a day will work wonders. A full day's supply can easily be prepared at one time by using one glass luke warm water and teaspoon sugar to each yeast cake. Allow to stand over night in moderately warm room. In the morning stir well and pour off liquid. Place in refrigerator or other cool place and drink at intervals as desired throughout the day.

Send name and address for free booklet "Royal Yeast Cakes for Better Health."

EVILGILLET COMPANY LIMITED  
WINNIPEG, TORONTO, CANADA, QUEBEC.

## Canada's Needs

No. 6—Scientific Research (Continued)

Admitting that Canada has been backward in the prosecution of scientific research, and granting that an effort should now be made to overtake the loss occasioned by past neglect, the question arises what is to be done and how?

No government should be expected to bear all the cost of discovering new scientific truths; that of course is paternalism. Most of the cost of this work must be left to private enterprise since it is by private enterprise that the new knowledge will be exploited, properties laid out, employees set to work, and production carried on.

But if every branch of Canadian enterprise starts independently in the pursuit of new scientific knowledge there is bound to be tremendous waste. Many duplicate laboratories would be required. Much over-lapping of effort would go on. In one laboratory time would be lost in proving or disproving what had already been learned in a laboratory somewhere else—and perfectly willing to share the knowledge.

A vast amount of energy and money would be wasted on ground work—instead of having the ground work done as far as possible in common and the money available for research concentrated on the really new effort. To discover a quite simple formula might cost so much for laboratory and men as to discourage the enterprise.

A lack of organization would be, therefore, a drag on the wheel. It has been suggested in such circumstances that the universities should be mobilized. But this view has had to be abandoned, not merely because universities are scattered, but because university routine cannot meet the requirements of the kind of research the business world now needs without damaging the usefulness of the university to its students.

It has also been suggested that the scientific staffs attached to certain Government departments could satisfy this need. But the work, which is needed, cannot be done entirely by the Dominion Government. In many cases investigation can be carried out to the best advantage under one or more of the Provincial Governments, or under Federal and Provincial authorities in cooperation. Moreover it will often happen that the work cannot be completed as a practical and commercial success without calling on the financial and other help of the industries which are concerned. In all such cases the work lies outside the duties of any Government department and should be directed by a body with greater independence and freedom from administrative duties.

Thus in England, in the United States, in Germany, and in Japan, the need for some central bureau of research to synthesize the efforts of its individuals has resulted in the establishment of State institutions equipped and endowed by public funds, controlled by Parliament only in regard to the amount of funds made available for its yearly work.

It is proposed, therefore, that the Government of Canada should set aside \$500,000 to erect and equip a building at Ottawa to be known as "The National Research Institute," and that it should make an annual grant for the carrying on of research in the public interest.

In addition to this kind of work special confidential studies of commercial problems would be carried out for persons or corporations or trade guilds willing to pay the cost of such studies.

This organization would provide a Bureau of Standards—that is, a Bureau for the making of delicate tests, measurements or analysis of standard articles of Canadian trade—a work for which Canada has now to depend largely on the services of foreigners.

In other words, instead of having to rely on the scattered and unorganized efforts of gallant and public-spirited investigators—instead of having her manufacturers send their money, as happened in at least one case, to a foreign state institute to buy research—Canada would have her own central Bureau of Standards for Research.

Here, laboratories and tests, measurements would be maintained for public use and a continuous study of Canadian materials would be carried on.

Here the results of ground work could be pooled and made available to anyone.

Here the engineer or chemist might find the last word in common knowledge of a subject and so have a much better taking off place for his own research.

Here would be men who might be employed—at cost—to make experiments for this concern or for their finding in such cases becoming the property of the man or firm or group of firms who paid the cost.

Here the finest instruments and apparatus would be available for those who desired to send their experts to explore some branch of knowledge.

Here, in other words, the State would provide at cost, a common workshop place and a common repository of such new scientific knowledge as had been acquired at public expense. At the same time, secret discoveries made at the expense of private enterprise, would remain the property of their discoverers—no longer as used in the public interest—the public at large benefiting by the stimulus to industry and employment which, in theory at least, follows the application of such private knowledge.

This is what has been done in foreign countries. This is what the Council of Scientific and Industrial Research believes should be done in Canada. And, after all, is this not one of Canada's needs which must be met if this Dominion is to take and hold its rightful place among the enterprising and progressive nations within the League of Nations?

## Those Having Sick Animals SHOULD USE

Good for all throat and chest diseases, Croup, Whooping Cough, Sore Throat, Hoarseness, Stomach, Bowels, and all other ailments. Should always be in the stable—SOLD EVERYWHERE.

W. N. U. 1407

## Trials of Wireless Exports

Radio Operators Still Bothered By "Vagrant" Signals

Despite the most diligent research, experts are not yet able to say whence the mysterious "vagrant" signals come that every day, and particularly at night, are received on wireless airdials.

"From the earliest days of long distance wireless telegraphy, the difficulty in reception due to vagrant or natural electric waves and atmospheric electric discharges passing down the receiving aerial have been the bane of the wireless telegraphist," Professor John Ambrose Fleming, of London University, told the Royal Society of Arts. He said:

"Having regard to the fact that the positive atmospheric electric potential gradient of the earth increases at the rate of about 100 volts per meter of ascent, roughly speaking it is not surprising that aerials several hundred feet high may be traversed by quite large currents due to this cause alone, which may utterly swamp the feeble signal currents."

Professor Fleming is the inventor of the thermionic valve-circuit, which revolutionized wireless telegraphy and telephony.

## BARELY LIVED THROUGH IT

A terrible experience had Edw. J. O'Connor, of Saint Ste. Marie, from boyhood he writes: "I have been a constant sufferer from Asthma and Catarrh. My nose and throat was often stopped up, and I had disagreeable droppings from my throat. When an attack of coughing came on, it seemed as if I would barely live through it. I would gasp for breath. Catarrh would make me well. Its soothing healing action was exactly suited to my case." To those who suffer from Catarrh, Asthma, Throat Irritation and Bronchitis, Catarrhine is highly recommended. Two months' treatment, one dollar; smaller sizes, 50c and 25c, at all dealers or The Catarrhine Co., Montreal.

## In the Argentine Republic

If an engaged man in the Argentine Republic dabbles beyond a reasonable time in leading his fiancée to the altar he is heavily fined and if a resident of the republic should fail to marry he is taxed until he reaches the age of 80.

## His Rheumatism

### Gone He Rejoices

## Mr. Mike Karaim Praises Dodd's Kidney Pills

Saskatchewan Man, Who Suffered For Two Years From Rheumatism, Why He Recommends Dodd's Kidney Pills.

"I am, Mike, Lake, Sask.—(Special)—I suffered for two years from rheumatism but I am glad to tell you I am well again. In these words Mr. Mike Karaim, a respected resident of this place gives the reason why he recommends Dodd's Kidney Pills to all his friends.

"I spent a lot of money on other medicines before I tried Dodd's Kidney Pills," Mr. Karaim continued. "I only used two boxes of them and now I feel fine."

Rheumatism is caused by Acid in the blood. The natural way to treat it is to strengthen the kidneys so they will do their full work and strain all the uric acid out of the blood. Dodd's Kidney Pills make strong healthy kidneys. Dodd's Kidney Pills have been in the Canada for more than a quarter of a century. They have grown in popularity year by year because of the work they have done.

Ask your neighbors about Dodd's Kidney Pills.

In England the average age of brides is 27.79 and grooms 30.08. No wonder there is a man shortage.

The first Portuguese ship reached Japan in 1542.

## WEAK HEART

### NERVES BADLY SHATTERED

Many a woman who should be strong and healthy, full of life and energy is bound by the shackles of ill-health.

Some disease or constitutional disturbance has left its mark in the form of a weak heart, shattered nerves, impoverished blood and an exhausted condition of the whole system.

## MILBURN'S HEART AND NERVE PILLS

they will find a remedy that will supply food for the exhausted nerves, one that will strengthen and regulate the weak heart and invigorate the whole system.

Mrs. W. W. Pearce, 14 Seaton St., Toronto, Ont., writes:—"I was afflicted with a weak heart and in a run down condition from the flu. My nerves were badly shattered, and I had such pains around my heart I could not sleep much at night. I took several doctors' medicines without getting any better. My husband led me to try Milburn's Heart and Nerve Pills, and after I took one box I got relief, and taking six boxes I have been well and not bothered since."

Price, 50c a box at all dealers, or mailed direct on receipt of price.

The T. Milburn Co., Limited, Toronto, Ont.

## CASTORIA

For Infants and Children

In Use For Over 30 Years

Always bears the Signature of *Chas. H. Steichen*

## Choosing A Home

BY LORETTO C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

A letter has come to me from a serious-minded young man who has asked "the most wonderful girl in the world" to be his wife. He asks for some points to help him in selecting a home.

I believe one's first home should be a rented one, even if it is rented for so short a period as one, two or three months. In this rented home one may learn from first hand experience just what is desirable.

Sunshine, ventilation, sanitation, ease with which the home may be kept clean are among the factors to be considered. Proximity to cars, most often church, school, should be taken into consideration.

In fact, the carfare of a worker from his home to his place of business and the time consumed in transit should be considered, possibly as part of the rent. An hour's journey from home to business should be the limit. Where one must travel longer than this, there is too great a drain upon what should be, reserve vitality or the transportation cost is, unduly high. And, after you have studied out just what you like and what you do not like in your rented home, you will be in a better position to know just what you want when you buy a home.

And everything considered, it should be the aim of every married couple to eventually own their own home. People who own their own homes feel a certain responsibility for the condition of their home, the condition of their streets, the kind of citizens elected to public office, the school of the neighborhood, the moral conditions of the community, the social side of the community as well as what kind of business may be permitted to come into the neighborhood.

And when people begin to feel this kind of a responsibility, they automatically begin to be better citizens. And better citizens and their children make for a better America, and after all, that is what every real home-maker in our country is striving for—a better America.

## Production In Canada

Products of All Kind for the Dominion Reach High Figure

The value of Canadian products of all kinds for the year 1920 reached a grand total of \$7,716,247,141, according to a report prepared by the Dominion Bureau of Statistics. Of this total agriculture contributed \$1,940,000,000, made up as follows: Field crops \$1,455,244,000; farm animals \$104,083,000; wool \$5,321,000; dairy products \$250,000,000; fruits and vegetables \$400,000,000; and poultry and eggs \$500,000,000. The total for general manufactures is placed at \$3,345,931,594.

Some people seem to think they can get peace prices and war time wages.—Flint Journal.

Relieves Asthma at Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of even the poorest sufferer for asthma. Your dealer can supply you.

## Justice Slow But Sure

Italian Government Clerk Receives Award After Twenty Years

Think the course of justice is slow but sure must be the reflection of a certain Italian government clerk. Twenty years ago he was dismissed from the Italian postal service, accused of stealing a postal order that had disappeared in the office at Aquila. Recently a clerk was tidying up the safe and there he found a velvet postal note for a considerable sum. An old man, who had been in the service for more than a quarter of a century, remembered that a clerk had been charged with stealing an order and dismissed. An investigation followed, and the innocent victim of the blunder was finally recovered. The government, according to the New York Tribune awarded him the handsome sum of \$25,000—the total amount of salary he would have received had he not been discharged.

The extinct volcano Palabo, overlooking Honolulu, now furnishes 2,000,000 gallons of drinking water daily to the city.

Minard's Liniment for Warts, Corns, Etc.

## An Architect's Mistake

Admiralty's Building in London Constructed from Asylum Plans

The modern Admiralty's Building in London, according to a story for which a correspondent will not vouch, has an amusing origin.

The architect who designed the building had been commissioned to prepare the designs for the new building was at the same time engaged planning a new lunatic asylum. Summoned suddenly to Windsor to show Queen Victoria his drawings, he took with him by mistake those for the asylum. This he discovered only when Her Majesty told him he had handed his portfolio, expressed herself highly pleased. As she approved very much of the design, nothing more was to be done, and the admiralty as it stands today was constructed on the plans made for the asylum.

## Have You Stomach Risings, Gas, Heart Burn, Sourness? Tells of a Simple Remedy

It's really wonderful the quick relief you get from ten or twenty drops of Nervine in sweetened water. For cramps and spasms, Nervine is equally efficient. To safeguard yourself against these ailments, keep handy on the shelf a bottle of trusty old Nervine. It will relieve the minor aches and pains of the whole interior, or internal, or external use. 35c at all dealers.

## Farms In Canada

According to the latest returns of the Bureau of Agricultural Statistics there are 698,368 farms in Canada, 184,337 being in Ontario, 142,017 in Quebec, 120,900 in Saskatchewan, 56,000 in Alberta, 55,181 in Manitoba, 46,269 in Nova Scotia, 35,562 in New Brunswick, 14,211 in British Columbia and 15,888 in Prince Edward Island.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

## Motor Cars In West

Of a total of 400,000 motor cars in commission in Canada, 156,454 are located in the western provinces. In Manitoba there are 9,814; in Saskatchewan, 58,285; in Alberta, 36,515; and in British Columbia, 26,500.

## KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are changeable—one bright, the next one cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or cramps. The remedy is to keep the little ones well in baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Airplane Carries Diamonds

A company operating diamond mines in the Congo is using airplanes to convey the gems to the nearest town of importance.

## Minard's Liniment for Colds, Etc.

From the "Hat" There has been shipped from Medicine Hat for export to Europe, via the Panama Canal, 1,679 tons of flour since the 1st July last and orders are on hand for a further 2,498 tons.

## DID PAIN DISTURB YOUR SLEEP?

THE pain and torture of rheumatism can be quickly relieved by an application of Sloan's Liniment. It brings warmth, ease and comfort and lets you sleep soundly.

Always have a bottle handy and apply when you feel the first twinge. If severe without rubbing. It's splendid to take the pain out of tired, aching muscles, sprains and strains, stiff joints, and lame backs. For forty years pain's enemy. Ask your neighbor.

At all drug stores—35c, 70c, \$1.40. Made in Canada.

**Sloan's Liniment** (Pain's Enemy)

## Football Played On Horseback

Chief Amusement of Men in Mountains Near Turkestan

A kind of football game played on horseback is the chief amusement of the Kelgis, or people who live in the Pamir Mountains near Chinese Turkestan, says Miss Ella Sykes, a well-known English traveller who recently visited that region.

It is a man's game and the football is made by inflating the skin of a goat. The women find their greatest pleasure in attending funeral feasts.

## The Druggists All Agree That "Putnam's" Is Best

"The oldest corn remover on the market is Putnam's Corn Extractor—and it is the best. Your corns will all drop out after a few treatments with this painless remedy. Failure impossible. Refuse a substitute for 'Putnam's,' 25c everywhere."

## Blamed for Cattle Disease

Trouble Said to Have Originated Among Irish Cattle

The new outbreak of foot and mouth disease in England is said to have originated among Irish cattle, and have led to an embargo on English cattle by some Scotch countries. English papers are renewing their demand for the removal of the embargo against Canadian cattle. Col. Mullings, of Winnipeg, who is now in England to ascertain the market conditions for Canadian cattle on behalf of the Winnipeg livestock exchange, reports that one Liverpool firm handled ten thousand Canadian cattle last summer with a loss of only a fraction of one per cent.

## Minard's Liniment for Garget in Cows

New Mill For Grande Prairie The Northern Light Milling Company, whose plant was destroyed by fire during the summer, announces that it will rebuild in the early spring.

The new plant, according to the manager's statement, will be the most modern of the smaller mills of the west, with a capacity of 125 barrels per day.

## Couldn't Understand It

Mother.—No Bobby, for the third time I tell you you cannot have a nickel.

Bobby (in despair).—I don't see where pa gets the idea that you're always changing your mind.

One of the commonest complaints of infants is worms, and the most effective treatment for them is Mother Graves' Worm Expeller.

Ice cream made of goat's milk and flavored with rose leaves is a favorite delicacy of the people of Greece and Crete.

It takes Jupiter a little less than 12 years to make his journey around the sun.

## Women should Insist

No matter what you buy in kitchen utensils, demand that each article carry the SMP trade-mark shown below. SMP Enamelled Ware is safe to use; acids or alkalis will not affect it; it cannot absorb odors; cleans like china; wears for years. Tell the storekeeper you want either

## SMP Diamond or Pearl

Diamond Ware is a three-coated enameled steel, sky blue and white outside with a snowy white lining. Pearl Ware is enameled steel with two coats of pearl grey enamel inside and out.

## Lees and Milligan Bonspiei Winners

But Rennie Brings Home  
The Bacon as a Suit-  
able Consolation

Chinook's bonspiei last week  
was one of the most successful  
ever held, many interesting  
stories being related, and the  
winners. We are unable to  
give the complete draw owing  
to lack of space in the make-up  
of our paper.

## Notice to Illegal Wearers of Uniforms

The persons who, without author-  
ity, wear uniform or purport thereof  
coming within the following class:  
Discharged (C.E.F.) soldiers who  
have been permitted to retain their  
uniform on discharge and persons  
who have purchased from such dis-  
charged soldiers or other individuals  
articles of uniform with the buttons  
and badges remaining thereon.

Municipal District of Sounding  
Creek, No. 273

## Municipal Elections 1922

PUBLIC NOTICE is hereby given  
that a meeting of the electors of the  
Municipal District of Sounding  
Creek No. 273 will be held in the  
Rex Theatre, Youngstown, at 8 o'clock  
in the afternoon on Monday,  
the twentieth day of February, 1922,  
for the discussion of the affairs of  
the district and the nomination of  
candidates for the office of council-  
lors, and that such nominations will  
be there and then received from the  
hour of three o'clock until the hour  
of four o'clock in the afternoon.

Given under my hand this  
ninth day of February A.D. 1922.

R. N. MANGLES,  
Returning Officer.

Municipal District of Collinwood  
No. 243

that a meeting of the electors of the  
Municipal District of Collinwood No.  
243 will be held in the Collinwood  
School, Collinwood, Alta., at one o'clock  
in the afternoon on Monday,  
the 20th day of February, 1922, for  
the purpose of discussing the affairs  
of the district, and the nomination  
of candidates for the office of coun-  
cillors, and that such nominations  
will there and then be received from  
the hour of three o'clock until the  
hour of four o'clock in the after-  
noon.

Given under my hand this ninth  
day of February, A.D. 1922.

JAMES M. DAVIS,  
Returning Officer.

## Mortgage Sale of Farm Property

PURSUANT to the directions of  
the Registrar's Order Nisi there will  
be offered for sale by private sale up  
to the First day of March, 1922, the  
following property, namely:  
The West Half of Section 2, town-  
ship 29, range 7, west of the Fourth  
Meridian.

This property is situated about one  
and a half miles from the Village of  
Chinook, where there is the nearest  
elevator, post office and school. It  
contains 320 acres, nearly all of  
which is arable. The soil is chocolate  
loam with clay and gravel sub-  
soil. There are no buildings. Land  
is all fenced.

The above property will be sold  
free from all encumbrances save  
taxes for the current year and the  
reservations contained in the exist-  
ing Certificate of Title.

The terms of the sale to be twenty  
per cent cash and the balance to extend  
over a period of three years, or a  
mortgage for the balance.

Offers will be received up to the  
above mentioned date by the under-  
mentioned solicitors from whom  
further particulars may be obtained.

CARSON & CARSON,  
Barristers and Solicitors,  
Calgary, Alberta.

## GLOBE TROTTERS ENJOY WINTER SPORTS

Some of the Circumnavigators and their wives on Dufferin Terrace, Quebec. Left to right (standing): Hon. Frank Carrel, Dr. T. A. Buckley, Mr. W. F. Smith, Mr. R. W. Orcutt, Mrs. Orcutt, Mr. Tyrrie Stevens, Mr. N. A. Hubert, Mrs. Hubert, Mrs. Buckley, Governor Newton W. Gilbert. Left to right (kneeling): Mr. Robert F. Hand, Mrs. Silbert, Mrs. Stevens, Mrs. Smith.

The New York visitors to the Chateau Frontenac, Quebec, the afternoon day included a large party of the Circumnavigators' Club, under the leadership of Newton W. Gilbert, ex-governor of the Philippine Islands, and Mr. Tyrrie Stevens. All members of this club have circled the globe, and this year decided on a Quebec celebration in view of the important part played by French-Canadian explorers in opening up routes around the world. At a dinner given in their honor by Hon.

Frank Carrel, a Canadian member of the club, and member of the Quebec Legislative Council, did French officers were sung by a quartette from the Montreal Snowshoe Club, in co-operation with the Chateau Frontenac, which presented each member with a book reproducing the words and melodies. During the visit the Circumnavigators' Club visited the historic shrine of St. Anne de Beaupre and on their return were initiated into the mys-

teries of curling at the Garrison Club. Governor Gilbert stated: "It would be difficult adequately to express my appreciation of the kindness and hospitality which characterized this delightful visit. I have visited many quaint quarters of the world in my travels, but none which combine quaintness with beauty as Quebec city does." The party comprised Mr. and Mrs. N. A. Hubert, New York; Dr. and Mrs. T. A. Buckley, New York; Mr. and Mrs. W. F. Smith, New

## CANADIAN PEACE-TIME HEROES

The Phenicians had no rule to cover it: there was nothing in the Amalfi code forcing men to rescue their brethren drowning at sea, but there is that in the heart of every British seaman, born of tradition, which does not permit him to pass by without aiding fellow sufferers in distress.

When the call went out from the French liner Hsin Tien asking for assistance last April on the coast of China the crew of the Canadian Pacific liner "Montegale" heard the S.O.S. and hurried to the assistance of the fast sinking vessel.

It was the recognition of this act of bravery on the part of both the white and Chinese members of the crew of the "Montegale" that the presentation of the Liverpool Shipwreck and Humane Society medals and certificates were made recently on board the boat as they lay at the company's dock in Vancouver.

Lieut.-Gov. W. C. Nichol made the presentation in well directed and impressive language. Particularly for the Lieutenant-governor pay attention to the boys receiving the medals admonishing them to even greater things in the future.

Official Word of Men. Proud of the work of their men the Canadian Pacific Steamship Company planned the presentation, having all company officials present and many prominent business men of the city.

In the absence of J. Vaux, assistant purser, Mrs. Vaux received her husband's medal and certificate. The C. P. & C. recognized the bravery of the Chinese by monetary prizes several months ago when

they were transferred to other ships. The story of the rescue is a thrilling one, though the reports of the officers of the "Montegale" are not devoted to "high lights," dealing simply with an outline of the actions taken. Captain Hosken's report read: On April 7, noon, we left Hong Kong. By midnight of that day the wind had increased to strong head winds and rough seas. On April 8 the wind continued and the sea was high, the vessel pitching and spraying the decks.

"At this time a steamer was sighted flying signals of distress. I am pleased to be able to report that we were able to rescue the whole crew of this unfortunate steamer, with the exception of four of the Chinese sailors, who were apparently drowned when their own boat capsized on being put into the water. Owing to the strong winds and high seas, and the fact that only two boilers of the "Montegale" were working, it was hard to manoeuvre, adding greatly to the difficulty of the rescue crew.

French Boat. The distressed steamer was the French vessel "Hsin Tien," of Saigon. At 9:30 a.m. the "Montegale" was in a position to lower her lifeboats and two of these were despatched, one in charge of Chief Officer Ferguson and the other under First Officer Campbell. They had Chinese crews. About the same time the officers of the French vessel launched two boats, but one was capsized, and it is believed four of the Chinese seamen were drowned at the time. The other boat, with 15 Chinese, got safely away. The

chief officer's boat successfully reached the "Hsin Tien," and called to the men on the steamer to jump, but owing to the high seas running the Chinese on board refused, but one white man made the attempt and was taken on board the lifeboat. The wind and sea drove the first officer's boat past the sinking vessel, and drifted toward it in spite of the efforts of the Chinese seamen. The "Montegale" shifted to leeward, and the 15 Chinese men in the "Hsin Tien" boat, then took on the officer's draft, and finally at 11:45 a.m. picked up Mr. Campbell and his men. The "Montegale" Chinese were willing to venture again into the small boats, but Captain Hosken was convinced that they did not have sufficient stamina to stand the long fight necessary to operate the boats, so he called for a voluntary white crew. At 12:30 p.m. the volunteers got away, and an hour later were back with 18 persons. Great difficulty was experienced in getting the men off the wreck owing to the heavy seas. At 2 p.m. the lifeboat with its European crew again left the "Montegale." The "Hsin Tien" was getting very low in the water and there were 91 men to save. One of the men was sent to the lifeboat, which was working down to the steamer from windward, missed the vessel, and was swept to leeward of the "Montegale," swinging around, picked up the boat and towed it to the wreck, bound for Swatow from Shanghai. She was off the Lamrock Islands, a very dangerous bit of water, when sighted at 8 a.m. The "Montegale" was asked to stand by and an hour later dropping her to

where she could probably make the side of the "Hsin Tien." At 8 p.m. the last person was taken off the French ship, and 15 minutes later all were safe on the "Montegale." The total rescued was six Europeans and 60 Chinese. At 4:30 p.m. the "Hsin Tien" was sunk.

Praise for Heroism. "Early in the morning when the "Montegale" was in rough water, the French mail steamer "Hsin Tien" came along, stopped and endeavored to get out a boat to help, but was unable to do so on account of the weather and sea.

"All over the China coast the "Montegale" and her men were lauded for the splendid work which they accomplished. The manager of the Societe des Transports Maritimes de Chine, the captain and officers of the lost steamer, tendered official thanks to them and presented them with an address of gratitude. The French consul-general at Shanghai wired his heartiest thanks to them.

"Mr. G. M. Bosworth, chairman of the Canadian Pacific Steamship Company, Limited, wired to Captain E. Beetham, general superintendent at Vancouver, as follows: "In connection with the rescue of the French steamer "Hsin Tien" by "Montegale," please convey from directors of the company to Captain Hosken, and to the members of the European and Chinese crews our appreciation of their gallant action. Directors are greatly pleased to have such brave men in their employ."—G. M. Bosworth."
